- Corvette is a Recommended Buy
- Corvette Convertible had the lowest overall insurance losses of any car

Consumers
Digest.com

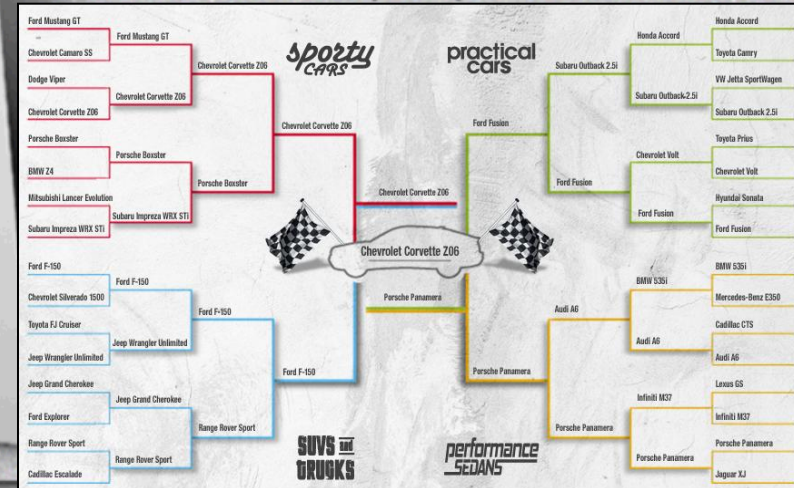

As it has for decades, the Corvette continues to deliver eye-opening performance, distinctive styling and a surprisingly comfortable ride. All of this puts it in a class of its own.

Even at the Z06 level, the Corvettes dual personality—a splendid street car that is just as much at home on a race track—is unmatched for the money that you plunk down. Some auto-industry critics have complained about the quality of the interior of this year's Corvettes, but we are less put off by it. We found the bucket seats to be firm and supportive, and, even on long trips, the Corvette is a comfortable companion

CONSUMER REPORTS - Moto Madness Championship - Corvette Z06 Wins The Title – 4/11

The original field of 32 vehicles had been narrowed down to a championship round with the Chevrolet Corvette Z06 facing off against the Porsche Panamera. The online voters made it clear the Z06 was their favorite.

The Future's Most Collectible Cars

provided by  **CNBC.com**

By Constance Parten, Senior Producer

738

43

For most people, automobiles are used for practical purposes. A lucky few drive expensive status symbols.

Top Five Most Collectible Cars of the Future

We asked McKeel Hagerty, a car aficionado and CEO of Hagerty Insurance, the leading insurer of rare and collectible automobiles and boats, which cars he thinks will lead the field when it comes to investing

[Chevrolet Corvette ZR1](#)

Production: 2009-Present

Transmission: 6-speed Manual

Horsepower: 638 bhp @ 6,500 rpm

Top Speed: 205 mph

Purchase Price: \$100,000

Today's Value Range: \$80,000 - \$100,000

"This is the Corvette that elevated the model into a new class of world class sports cars," Hagerty says. "Nowhere has this news been more prominently displayed than on the recent ZR1, the most powerful Corvette to date. And unlike the big block screamers of the 1960s, like the L88, the ZR1 is totally trackable and downright docile."

Decade in Review: 10Best of the Aughties - Feature

The 10 cars that dominated the past 10 10Best lists.

CAR AND DRIVER

decade
in review
10BEST CARS

Chevrolet Corvette - 8 10Best appearances

America's sports car made lengthy strides this past decade, improving build quality and shaming the world's supercars in sheer competence. Offering a highly proficient chassis and high horsepower at an affordable price, the Vette earned itself eight 10Best crowns.

What We Said:

"But if you want comfort, convenience, and uncanny competence in one handsome package, the Vette is in a class by itself." [—January 2003](#)

"This combination of heritage and sophistication gives the Corvette a uniquely American blend of performance, swagger, and everyday livability—characteristics that are all amplified in the 505-hp Z06 version." [—January 2007](#)

10 Best Cars of the Past Decade

provided by **Kiplinger**

677

52

How does anyone pick the 10 best vehicles of the past 10 years? Fortunately, Kiplinger ranks cars and SUVs every year, picking the best in various price categories based on performance, value and safety. So we combed a decade's worth of our buyer's guides to find the vehicles that showed up as winners time and time again. When the choices got tough, we gave the nod to iconic vehicles that pioneered a category and have stood the test of time.

Sports Car: [CHEVROLET CORVETTE](#)

Sticker price: \$49,900 (2011). **Resale value** (3 yrs./5 yrs.): 55%/38%.

Horsepower: 430. **MPG (city/highway):** 16/26. **Sticker price, 2001 model:** \$40,475. **Horsepower for 2001:** 350. **MPG (city/highway) for 2001:** 17/26 (revised).

In the past decade, Corvette has won a Kiplinger's Best award in the sports car category six times. Why? Beastly power, a tame price and considerable cargo room, where the back seat would otherwise be. The Vette was introduced in 1953, and it has aged along with the baby boomers — getting more powerful and faster with the years. The sixth generation Vette is shorter and narrower than its predecessor — more like the European sports cars — and the fastest yet: It clocks zero to 60 in 4 seconds flat. You can also get the Corvette in a convertible. And if 430 horses aren't enough, consider the Z06 (505 hp) or the ZR1 (638 hp). Both have top speeds of around 200 miles per hour.

FROM THE FEBRUARY 2010 ISSUE OF **CAR AND DRIVER**

Lamborghini Murciélago LP670	\$458,395 / \$480,325

LIGHTNING LAP at VIR

We expected the Grand Sport to better the Z51's time, and it did, by well over two seconds. Like all Corvettes, it has strong grip and excellent midrange power, with the added bonus of the Z06's stunning brakes..

ZR1 has Ohmigod! brakes, stellar thrust,... The ZR1 was 2.8 seconds quicker than the Ferrari 430 Scuderia and 3.8 seconds up on the Nissan GT-R (both from the 2008 event). All other things being equal, that's what a power-to-weight ratio of 5.3 pounds per horsepower will do for a car's performance

Lightning Lap 2011 - Feature

For the fifth time, we shake down the year's hottest metal at VIR.

BY K.C. COLWELL, MARK GILLIES, TONY QUIROGA, AND DAVE VANDERWERP, PHOTOGRAPHY BY PATRICK M. HOEY AND MARC URBANO

December 2010

The [Corvette Z06](#) now offers a Z07 performance package that incorporates some of the best features from the top-of-the-line [ZR1](#), namely magnetorheological shocks, Michelin Pilot Sport PS2 tires, and Brembo carbon-ceramic brakes. Our -tester also came with the carbon-fiber package. ...the Z07 option makes the Z06 blossom into a frankly amazing track car. Although it cedes 133 horsepower to the supercharged ZR1, the Z06 was just 1.7 seconds off the pace of its more expensive sibling.

The Z06 Corvette was also quicker than the Lamborghini Murciélago LP670-4 SV we ran last year and the breathtaking Ferrari 430 Scuderia at VIR in 2008, cars that are vastly more expensive. And the Vette felt as if it could run fast, repeatable laps all day long.

We were also impressed by the car's relatively neutral midcorner behavior and its brakes, which could stop a runaway locomotive.

Comparison: 2011 Chevrolet Corvette ZR1 vs. 2010 Porsche 911 Turbo

Monsters' Brawl: The King of the Hill Takes on the Autobahn Kaiser
November, 2010 issue of Motor Trend
/ By Jonny Lieberman/ Photography by Evan Klein

1ST PLACE: CHEVROLET CORVETTE ZR1

We're still red-eyed, white-knuckled, and blue in the face over GM's most powerful super-duper car.

2ND PLACE: PORSCHE 911 TURBO

The thinking man's supercar and dragstrip missile fails to tug at our heartstrings. It's flawless to a fault.

What about the Porsche? Well, it broke. The twin variable-vane turbos stopped spooling and the boost went bye-bye as we were warming the car up for its runs. Why? As of this writing, we don't know.

If two people looked at the Porsche, 50 drooled all over the Chevrolet. And both cars were alternately parked in front of my house for two weeks, but I discovered pink lipstick marks only on the Corvette's windshield. That's right, someone kissed the ZR1.

TEST DATA	ZR1	911 Turbo

Top Speed Champions – The Fastest Cars in North America - Special Report

**Six of the flat-out fastest cars
you can buy in North America
– right now.**

By Nick Kurczewski

December 6, 2010

- Bugatti Veyron Super Sport – 268 mph - \$2,700,000
- Ferrari 599 GTO – 208 mph - \$450,000
- Corvette ZR1 – 205 mph - \$110,750
- Porsche GT2 RS – 205 mph - \$245,000
- Bentley Continental Supersports – 204 mph - \$260,000
- Lexus LFA – 202 mph - \$375,000

2011 Corvette ZR1 – 205mph

The \$110,750 [Corvette ZR1](#) is the cheapest way to break into the 200-mph club. In the case of this snarling [Chevy](#) coupe, that would be an official top speed of 205 mph. Don't be fooled by an exterior that appears similar to the standard 430-bhp Corvette. Under the ZR1's skin beats the heart of a 638-bhp supercharged 6.2-liter V-8. The wild motor is visible to passersby, thanks to a clear hood scoop that announces exactly how potent this Vette truly is. The cabin is also a quantum leap forward from the plasticky Vette interiors of a generation or two ago. It might lack some of the hand-craftsmanship of the other vehicles here, but the ZR1 has a sticker price that is less than half that of the competition – a fact we think more than makes up for any lack of mahogany paneling or titanium switch knobs. The ZR1's trunk will even hold a week's worth of luggage.

2011 Chevrolet Corvette Z06 - To the Power of 12 - Road Test Power-to-weight or bang-for-the-buck? Chevy takes claim to both descriptors with the new Z06.

2012 Seat Back
Halo Foam

The volume of seat back foam increased 13.2% due to the larger shoulders in the 2012 design.

Seat Back Release Handle Design Change for 2012

2011 Release
Handle and

2012 Release
Handle and

The design of the dump handle and bezel is changing for 2012 from a flat bezel with a t-shaped handle to a curved bezel with a wide lever.

The Bose® Sound System for the Chevrolet Corvette

9 high-performance speakers

- 1 Two 1-inch (25mm) neodymium tweeters, one on each side of the instrument panel.
- 2 One 3.5-inch (90mm) mid/high-range speaker in the center of the instrument panel.
- 3 Two 3.5-inch (90mm) mid/high-range speakers, one in each door.
- 4 Two 10-inch (255mm) Nd® woofers, one in each door.
- 5 Two 5.25-inch (130mm) wide-range speakers, one in each rear side panel behind the seats.

System electronics

- 6 A Bose® digital amplifier mounted underneath the passenger foot well with proprietary signal processing
 - AudioPilot® noise compensation technology
 - Six channels of custom equalization.
- 7 The system also includes an AudioPilot system microphone mounted inside the cabin.

2012 Enhanced Bose Premium Audio – 9 speakers

New Power Nd woofers:

The MY12' program includes the next generation of 10" Power Nd woofers. Their performance exceeds the current design with an improved efficiency and lower distortion. The listener can expect to the system to have more bass and should be cleaner and more precise at all listening levels.

1" Tweeters added to the IP:

The addition of tweeters to the vehicle extends the high frequency bandwidth of the system to ensure that all of the audible spectrum is reproduced accurately and with minimal audible distortion. The additional speakers also add to the amount of acoustic output over their usable frequency range. The presence of the tweeters enables the listeners to better hear the clarity and detail of the original source material.

System Re-Equalization:

The entire system was re-equalized to take advantage of the new speakers. This re-equalization further optimized each speakers' frequency response characteristics. The end result is system with more accurate sound staging and imaging and has better resolution of detail and clarity. This is the first time the system has been re-equalized since the introduction of the C6.

MH3 Close Ratio Transmission

1.13 g skid pad – 8% more grip – 3 seconds per lap at VIR

103 ft stopping distance at 60 mph

MICHELIN® Pilot® Sport Cup
Street Legal, Competition Ready

Included on Z06 with Z07 Performance Package
Included on ZR1 with PDE Performance Package
1.13g skid pad

MICHELIN® Pilot® Sport Cup tires are competition-oriented summer tires designed specifically for serious performance enthusiasts. Utilizing our extensive motorsports experience, MICHELIN® Pilot® Sport Cup tires feature a racing-bred tread compound optimized for on-track performance. They are designed to deliver extreme cornering power, leading to fast and consistent lap times, even through repeated heat cycles.

BENEFIT	FEATURE & ADVANTAGE
Consistent Performance — Lap After Lap	A race-inspired tread compound results in enduring performance characteristics in both wet and dry conditions, with consistent lap times over the entire life of the tire.
Powerful Performance Cornering	An asymmetric tread design utilizes a semi-slick outer tread and a wet-styled inner-tread design to help deliver powerful wet and dry cornering, promoting high performance confidence.
Race-Like Reflexes	The high-tensile steel cords and polyamide belt package help provide enormous support for the tread and crown areas for consistently powerful cornering capability and quick steering responses.

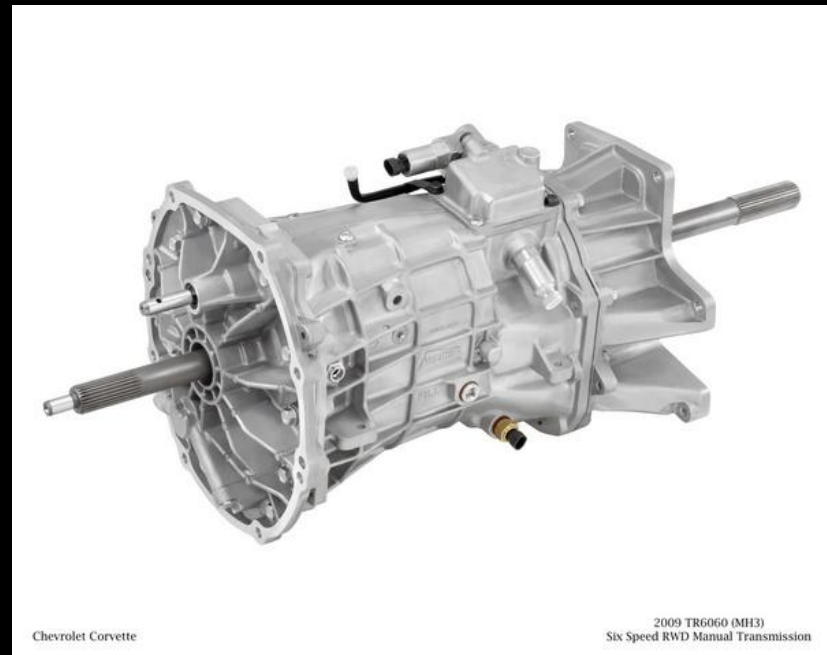

NOTE: These statements are among MICHELIN® Performance Sport tires.

ZR1 New ME2 transmission standard

- Similar 1st through 4th gear ratios
- Taller 5th and 6th gears - Better for highway
- Improved highway fuel economy +2 mpg – 22 mpg
- Lower gas guzzler tax to level 1– save \$300
- MH3 close ratio included with PDE performance package

 - Chrome wheels available for 3LT/4LT,
 - Machined wheels available for 3LZ/3ZR
- F55 Magnetic Ride Control included on all models
- Red painted brake calipers included on all models

2012 model year is Chevrolet's 100th anniversary

How Chevrolet 100th relates to Corvette:

- Louis Chevrolet was a famous race car driver and designer
- Louis Chevrolet desired his name to be used on high performance cars
- If Louis Chevrolet was alive today, the Corvette is the car he would be most proud of
- We chose to use Louis Chevrolet's iconic racing imagery for the badging and logos
- First Chevrolet models sold to customers were 1912 models – Chevrolet Founded November, 1911
- Tie in to C6.R race car livery for 2011 with Louis Chevrolet's "Never Give Up" motto

2012 Chevrolet Centennial Edition – Key dates

- C6R race car at Sebring ALMS race March 18-19
- Show car preview at Barrett-Jackson in West Palm Beach April 7-10
 - VIN #100 auctioned – Z06 version with Z07 option
- 2012 saleable 3 cars: Z06, ZR1, and Grand Sport Convertible shown first at National Corvette Museum Bash April 29
- Production ordering starts May 2
- Media test drives targeted for June
- 2012 Production starts June 20

April 9 Barrett-Jackson Palm Beach

2012 Chevrolet Centennial Edition Z06 - VIN00100

The Corvette Ownership Experience

Personalization

Create your own dream Corvette

- 10 colors on all models
- 4 Convertible top colors (Black, Beige, Gray, Blue)
- 10 Interior choices (5 colors, two-tones, leather, suede)
- New custom color stitching option (Blue, Red, Yellow)
- Headlamp contrasting color option (Cyber Gray, Black, Blade silver)
- Brake Caliper color option (red, silver, gray, yellow)
- Wheels choices – silver, competition gray, machine face, and chrome
- Z15 Grand Sport Heritage Package with 4 stripe choices
- D30 Recommend combination

Genuine Corvette Accessories

- Corvette is the best in GM in \$/car

Museum Delivery

- Available as a dealer option
- Guided VIP tour of Bowling Green Assembly
- Customer takes delivery of their car at the National Corvette Museum
- Customer receives commemorative plaque with their name, date of delivery and VIN
- One-year membership to National Corvette Museum

Corvette Buyers Tour

- Guided VIP tour for customer and one guest
- Tour includes parts of the plant not included in the general plant tour
- Gives customers the opportunity to see their actual car going down the line

Corvette Photo Album

- Twenty-plus pages of text and photos devoted to capture the build process of the customer's Corvette
- Letter of authenticity
- Letter from the GM Bowling Green Assembly Plant Manager and the National Corvette Museum's Executive Director
- Back page autograph area for memorable moments/events

Official Corvette Driving Schools

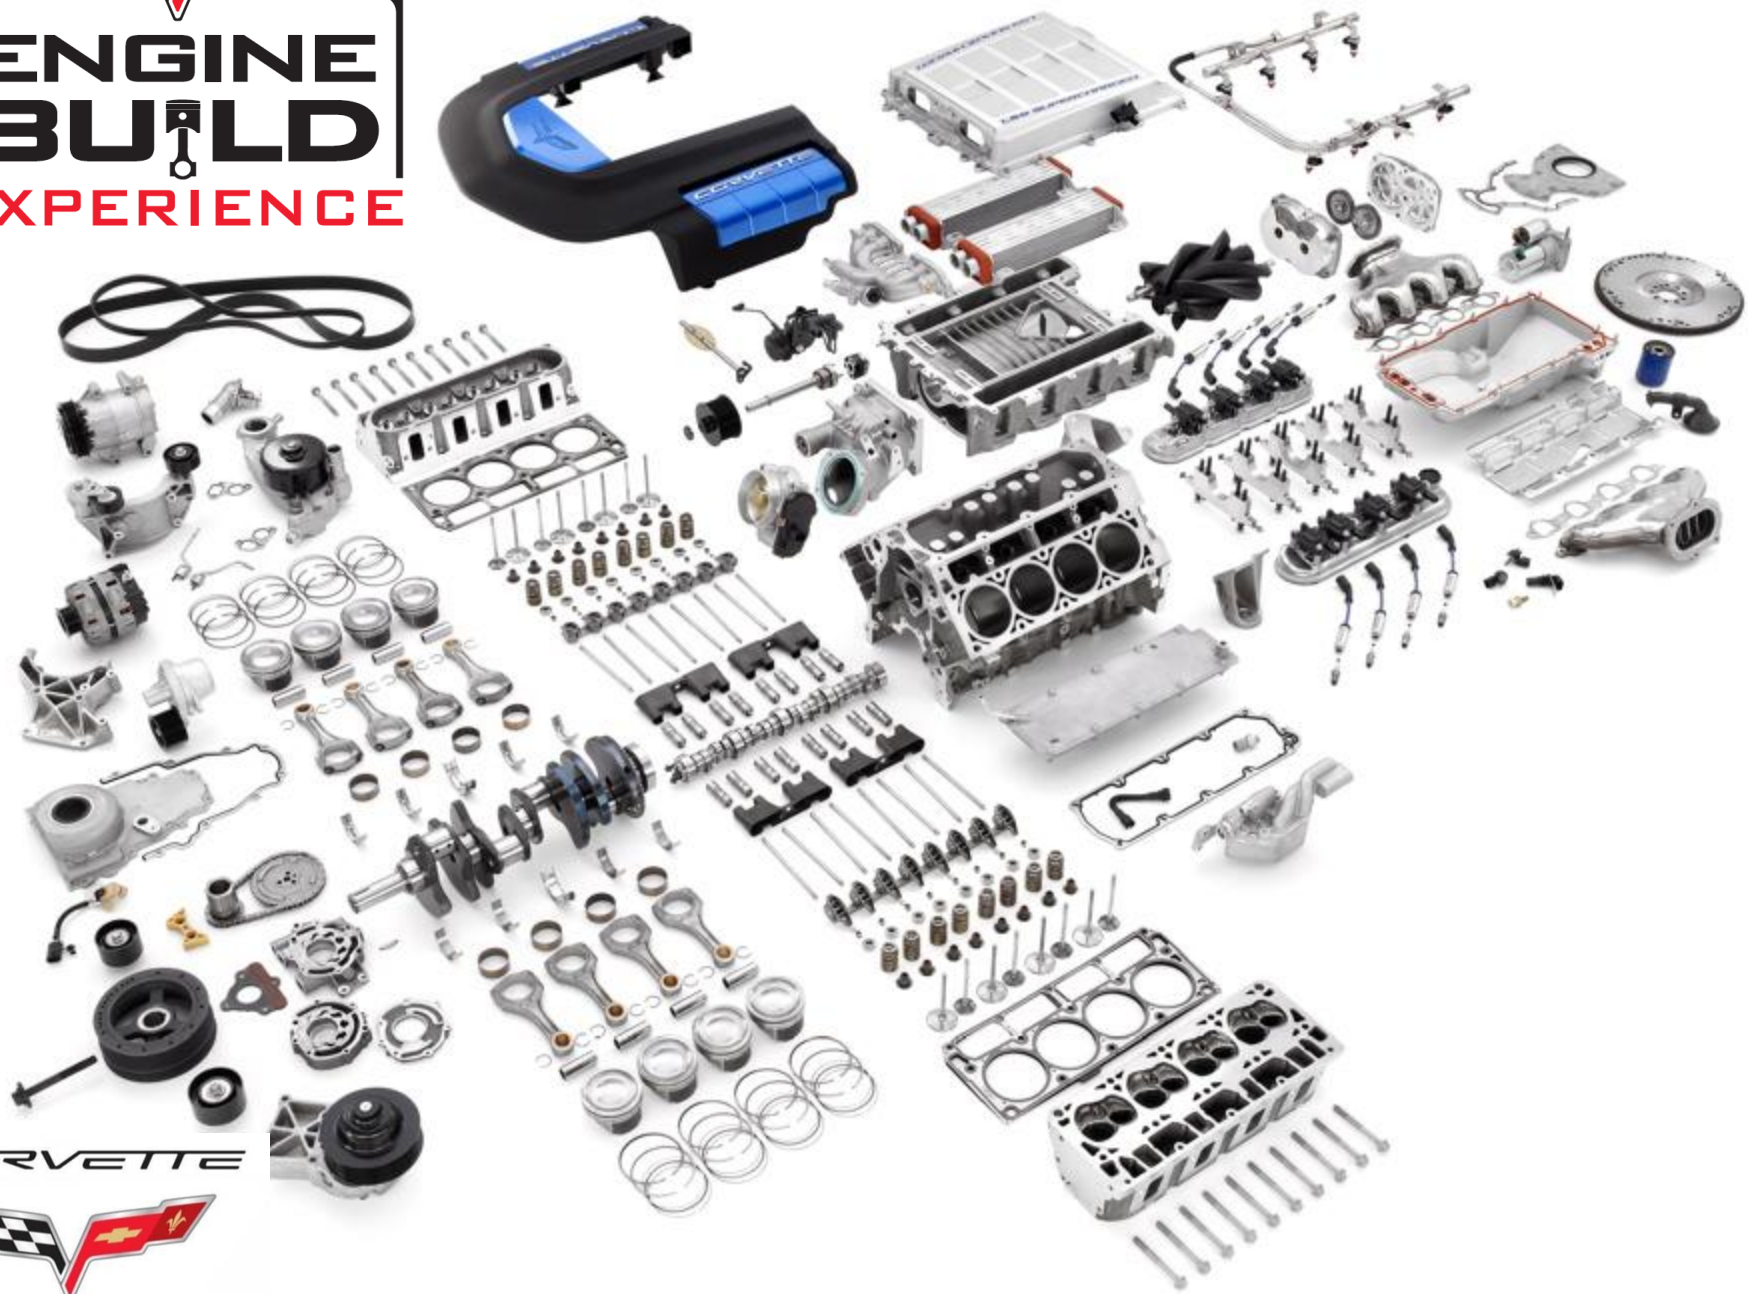

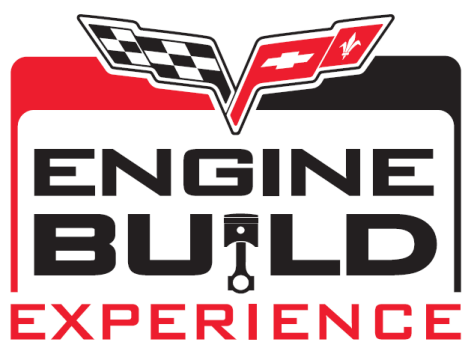

- Each ZR1 customer receives a voucher to participate in one of our two official Corvette ZR1 driving schools
- Corvette Official Schools: Spring Mountain Motorsports Ranch and Bondurant Driving School
- Customers receive official certificates of completion

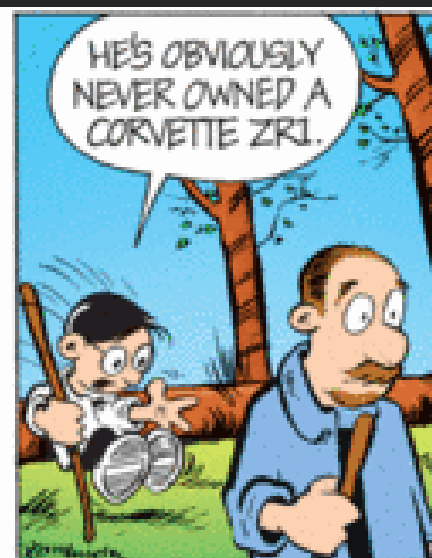

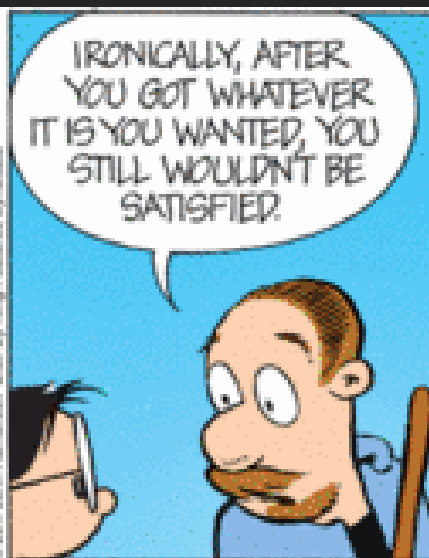

Other perks

- Corvette Corrals at ALMS races
- High Performance Driving Events
- Future: Le Mans inspired track at the Corvette Museum Motorsports Park
- Pick your VIN option
