Description

1967 Corvette original tire air, carefully removed and bagged for reuse from an original spare, this was a real barn find, was actually in an L-88 tire tub , this is the only way to get all the points the judges are smelling for! Nothing like real 67 smell! Very rare find, you have probably been looking for a long time, do NOT snooze and lose! This is the real deal!

This will actually fit any Car, but its really appropriate only for 67. as its the correct aroma. This would be factory installed for any 1967 original application, be sure its what you need , most experienced, expert judges will quickly tell you you have the wrong air in your tires and you will never get the top award you are looking for if its the wrong vintage. I have also heard some judges can tell the difference between GM or Ford air, so be careful here. These guys are sharp, highly trained, experienced, and know all.

Cannot ship via air , ground only, freight charges apply and depend on your location.

Local pick up only, will not ship

The bidding for this auction is for the plastic bag. The air is included at no cost.
